

3 January 2023

Dear Sir/Madam,

**RECOMMENDATION LETTER FOR MR. BERNARD JOSHUA A/L RAJA RAJAN**

This letter offers my recommendation to Mr. Bernard Joshua a/l Raja Rajan as he applies for a place in Bank Negara Malaysia Internship Programme 2023.

Bernard is in his final semester in Bachelor of Computer Science 3+0 in collaboration with Swinburne University of Technology, Australia (SUT) at INTI International College Subang, majoring in Data Science. Bernard is a focused and driven person and has demonstrated excellent teamwork as a student with the programme. I believe such qualities are important and relevant for him to embark on his internship placement particularly in your esteemed organisation.

I have known Bernard for a year, having taught him an elective subject on media and communication - Global Media Industries (GMI). He communicates eloquently and is very detail in research and report writing. He also has the eye to analyse critically. As a lecturer, I have been able to observe his progress and would rate his performance as remarkable. Through GMI, he was able to understand how media organisations balance global operations with local market conditions; and the same time analyse the impact media have on global issues.

I support Bernard's application based on his many qualities mentioned above. With his multicultural background and international outlook, I believe that an internship placement within your esteemed organisation will enable him to reach his utmost potential.

Should you require further information, please do not hesitate to contact me via the information supplied below.

Thank you.

Best regards,

Rohayu Kosmin
